The Pennsylvania Healthcare Coalition Preparedness Program:
A partnership between the Pennsylvania Department of Health (DOH) and The Hospital and Healthsystem Association of Pennsylvania

Thomas L. Grace RN, PhD
Vice President, Emergency Preparedness
The Hospital and Healthsystem Association of Pennsylvania

June 14, 2017
The DOH initiated a partnership with HAP to help refine enhance and test individual health care facility preparedness activities and response plans.

The HAP partnership helped to develop a regional coalition approach to health care preparedness across the state, building upon the membership and work of the existing nine Regional Task Force Health and Medical Structures.

The partnership’s activities supported coordination management and response to a variety of incidents and planned events impacting the health care facilities, health care system and communities at large.

Contract Budget @ $1.2M
HAP is staffing the program with six regional managers and one vice president level statewide program director.

The HAP staff is located regionally across the state. While managers have been assigned to specific regions, they routinely support each other and share in activities across regional lines.

The HAP staff works closely with:
- DOH
- Emergency Management
- Regional Task Force (RTF) Health and Medical Leadership
- Regional EMS Councils
- Partners in regional preparedness and response planning
The HAP team works directly with regional coalition members to support “Whole of Community” preparedness and response, to include:

- Hospitals
- Long-term care facilities
- Community health centers
- Ambulatory surgical centers
- Home care agencies
- Other health care facilities and agencies
- DOH, county and municipal public health
- Emergency management agency staff
- Task force health and medical leadership
- Regional EMS councils
- Partners in regional preparedness and response planning
In March 2011, the Centers for Disease Control and Prevention published the *Public Health Preparedness Capabilities: National Standards for State and Local Planning* which define public health preparedness capabilities and establish national standards.

In January 2012, the U.S. Department of Health and Human Services, Assistant Secretary for Preparedness and Response published the *Healthcare Preparedness Capabilities: National Guidance for Healthcare System Preparedness* which define health care preparedness capabilities and establish national standards.

Together, these documents serve as resources for public health and health care preparedness programs throughout the nation.
Hospital Preparedness Program Capabilities 2012:

- Health Care System Preparedness
- Health Care System Recovery
- Emergency Operation Coordination
- Fatality Management
- Information Sharing
- Medical Surge
- Responder Safety and Health
- Volunteer Management
Partnership Activities and Accomplishments Over the Past Five Years:

> The DOH/HAP partnership has:
>  - Helped to build, enhance, and test regional and individual health care facility preparedness activities, training, and response plans
>  - Supported individual facility and regional hazard vulnerability assessments
>  - Guided implementation, training, and administration of the Knowledge Center

> PA’s Healthcare Information Management System has:
>  - Developed and managed Statewide Mutual Aid Agreement and coordinated responses
>  - Provided staffing for “Health and Medical Operational Support” at local, regional, or state levels

2017 HPP Performance Measures

U.S. Department of Health and Human Services

Office of the Assistant Secretary for Preparedness and Response
Hospital Preparedness Program Capabilities 2017:

- Foundation for HCC and Health Care Readiness
- Health Care and Medical Response Coordination
- Continuity of Health Care Operations
- Medical Surge Management
- Strengthen Information Management
For the past five years the DOH/HAP Hospital Preparedness Partnership has:

- Promoted health care facility preparedness
- Built the foundation for regional health care coalitions
- Established information sharing capabilities that have been recognized as best practices
- Responded to and successfully managed a wide array of emergencies and events impacting health care facilities with no to minimal impact on the ability to provide quality health care to the commonwealth’s residents
ASPR Defined
HCC Membership

Encouraged
Suggested
“MUST” - Required
1: Foundation for HCCs and Medical HC Readiness

3: Continuity of Healthcare Operations

4: Medical Surge Management

2: Health care & Medical Response Coordination

- Incorporated in All Capabilities

Strengthen Community Resilience

Strengthen Incident Management

Strengthen Surge Management

Strengthen Information Management

IAP

Leading for Better Health
Capability 1: Foundation for HC & Medical Readiness

Objective 1: Establish and Operationalize HCCs
Objective 2: Identify Risk and Needs
Objective 3: Develop a HCC Preparedness (strategic) Plan
Objective 4: Train and Prepare Healthcare and Medical Workforce
Objective 5: Ensure Preparedness is Sustainable

Capability 3: Continuity of Healthcare Services Delivery

Objective 1: Identify Essential Functions for Health Care Delivery
Objective 2: Plan for Continuity of Operations
Objective 3: Maintain Access to Non-personnel Resources during an Emergency
Objective 4: Develop Strategies to Protect Health Care Info Systems and Networks
Objective 5: Protect Responders (Receivers) Safety and Health
Objective 6: Plan for Coordination of HC Evacuation and Relocation
Objective 7: Coordinate Health Care Recovery
Capability 2: HC & Medical Response Coordination

Objective 1: Develop and Coordinate HC Organization and HCC Response Plan
Objective 2: Utilize Information Sharing Procedures and Platforms
Objective 3: Coordinate Response Strategy, Resources, and Communications

Capability 4: Medical Surge Management

Objective 1: Plan for a Medical Surge
Objective 2: Respond to a Medical Surge
