

5/30/13

TO: Rep. Rose Marie Swanger
Sen. Mike former

Hi my name is Grace Sheehan, I am 8 years old. I have completed my 3rd grade work back in March and started 4th grade on April 1st 2013. I am writing to ask you to support my school choice to attend Agora Cyber Charter School.

I use to go to public school called Lickdale Elementary School, in the Northern Lebanon School district for kindergarten and 1st grade. I decided to go to a different school because I got bored and the school work was too easy for me, so I changed to Agora Cyber Charter School, where it was discovered that I am able to read at the 8th grade level and comprehend math at the 5th grade level while entering the second grade.

In Agora I am studying lessons that public schools do not have at the elementary level, such as, science, history, social studies, and Spanish. Agora is the best school for me, it has Alp (Advanced learners Program) which is a group of advanced students like me. At agora I can work at my own pace. That's why I want to stay at Agora. Please support my school choice by not taking away my school's funding.

Thank you for your attention.
E Mace Sheehan
