---

On behalf of the County Commissioners Association of Pennsylvania (CCAP), representing all 67 counties in the commonwealth, I write to share our support of Senate Bill 1078, and ask committee members to vote in favor of the legislation at their meeting on Wednesday, April 2. This legislation would amend the County Pension Law (Act 96 of 1971) to correct an issue relative to the calculation of cost of living adjustments for retirees.

Under the law, counties are obligated at least once every three years to examine whether to grant a COLA. The COLA may be granted “in accordance with the cost-of-living-index at the time of the review.” The issue has arisen that the language is vague in how the COLA is applied, leading to an interpretation that if it is applied it is to be retroactive to the last time a COLA was granted. For most counties, the COLA is infrequently granted, and so going back to the last COLA and compounding forward can yield an unsupportable increase in the benefit – with the result that the county continues to deny COLA adjustments.

The corrective language in SB 1078 would allow the county to grant a limited COLA, keyed to just the most recent year and not requiring retroactive application to the last COLA adjustment. The change would allow a county that has fund capacity to grant much-needed benefit adjustments without the adjustments being excessive and without the adjustments imperiling the solvency of the fund.

As with any change in benefits, other provisions of the law require actuarial evaluation before they are granted. We also note that county pensions under Act 96 (which applies to every county except Allegheny and Philadelphia) grant reasonable benefit levels and have few options, and as a result are largely fully-funded.

We appreciate your consideration of these comments, and we would be happy to discuss this legislation further with you. Please contact us if you have questions or need additional information.
