At the request of Senators Ryan Aument and Scott Martin, the Senate Majority Policy Committee is continuing its series of bipartisan, statewide public forums regarding our existing school property tax system at the Pequea High School Auditorium.

The primary legislation of interest that will be discussed is:

- Senate Bill and House Bill 76 to eliminate the school property tax
- House Bill 1285, a proposed constitutional amendment to either eliminate or reduce the school property tax for homeowners
- A variety of local-option solutions to reduce school property taxes
- Other proposals to reduce or eliminate school property taxes for our seniors.

Please plan to attend.

We're interested in hearing your thoughts and ideas.
